CONSTANT IMAGININGS OF EVIL, AND GREAT DEPRESSION OF SPIRITS CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S

CELBRATED GERNAN BITTERS PREPARED BY DR. C. M. JACKSON, GERMAN MEDICINE STORE, No. 120 Arch St., Philadelphia.

Their power over the above diseases is unescelled if equiled, by any other preparation in the United States, as the cares attest, in many cases ofter skilful physicians And faired.

These Bitters are worthy the attention of invalids. Possessing great virtues in the recti cation of diseases of the Liver and smaller glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant. READ AND BE CONVINCED.

The Ran, Charles D. Houeline, Editor of the "Cam-den Democrat," the best paper in West Jersey, says, July "ROOFLAND'S GERMAN BITTERS," "We have seen many flattering notices of his medicine and the source from which fley came, induced us to make inquiry respecting its merils. From inquiry we ware per squided to use it, and must say we found it specific in its action upon discusses of the liver and digestive oreans, and the power it exerts upon nervous prostration is really surprising. It came and strengthens the nerves, bringing them into a state of repose and unkes sleep refreshing.

elf this medicine were more generally used, we are satisfied there would be less sickness, as from the sto-inact, liver and beryons system the gread majority of real and imaginary diseases commate. Have then in a healthy condition, and you may be defiance to epidemics generally. This extraordinary medicine we would ad-vise our friends who are indisposed to give a trial—it will then recommend diseit. It should, in fact, he in every lamity. No other Medicine can produce such evidence of ment.

"Or Hogdond's German Billers, Here is a dvantageous to their their law in the weak systems."

Judge M. M. Noah, a gentlemon with great scientific and iterrary attainments said, in his "New York Weekly Messenger," Jammary 6, 1850.

"Dr Hogdond's German Billers,—Here is a preparation which the leading Journa's in the Union appear to be unanimous in recommending and the reason is ovenue. It is made after a prescription farmished by one of the most skilled physicians of modern times the late Dr Christopher Wilhelm Hoodand, Professor of the University of Jena, Private Physician to the King of Prussia, and income of the greatest medical writers Germany has ever produced. He was emphasically the enemy of humbing and therefore a medicine of which the enemy of humbing and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He especially recommended it in Liver Complaint, Dyspepsia, Nowen, Debilite, Vertigo, Acidity of the Stomach, Constigution, and all complaints arising from a disorder of condition of the Stomach, the Liver and the Inir health, as we know from experience the salutar

ed concidition of the rounants arising from a session of concidition of the rounants the Liver and the Intestines. Nine Piniadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances we feel warranted, not only in calling the attention of our readers to the present Proprietor's (Dr. C. M. Jackson's) preparation, but in recommending MORE EVIDENCE. The "Philadelphia Saturday Gazette," the best family newspaper published in the United States, the editor says

DR HOOFLAND'S GERMAN BITTERS. "It is seldom we recommend what are termed Patent Medicines to the configure and patronage of our readers, and, therefore, when we recommend Dr. Hoodhard's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrains of the day, that are notised about for a brief period and then forgotten after they have done their guilty race of nischief, but of a medicine long established, universally prized and which have met the hearty approval of the faculty

Evidence upon evidence has been received flike the foregoing! from all sections of the Union, the last three years and the strongest restinous is its favor is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nestrains combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will care layer Complaint and Discovers in the corn doubt, after using it as directed. It persia, no one can doubt, after using it as directed. person. To one can don't, after using it as girected. It acts specifically upon the stowards and liver—it is preferable to calonel in all billions discover—the effect is immediate.
